

Bind Source/Targets	Type	Binding	Description
Data	INFOTABLE	Target	Used for Data source
LocationField	FIELDNAME	Target	Used for Field which will provide location information for markers/tracks
MarkerField	FIELDNAME	Target	Used for Field which will provide icon information for markers
ShowMarkerTooltips	BOOLEAN	Target	Used for Show marker tooltips
TooltipField1	BOOLEAN	Target	Used for Show marker tooltips
TooltipLabel1	STRING	Target	Used for Optional 1st tooltip label
TooltipField2	FIELDNAME	Target	Used for Field which will provide 2nd tooltip data
TooltipLabel2	STRING	Target	Used for Optional 2nd tooltip label
TooltipField3	FIELDNAME	Target	Used for Field which will provide 3rd tooltip data
TooltipLabel3	STRING	Target	Used for Optional 3rd tooltip label
TooltipField4	FIELDNAME	Target	Used for Field which will provide 4th tooltip data
TooltipLabel4	STRING	Target	Used for Optional 4th tooltip label
RouteData	INFOTABLE	Target	Used for Route data source
RouteLocationField	FIELDNAME	Target	Used for Field which will provide location information for route
PlannedRouteData	INFOTABLE	Target	Used for Planned route data source
PlannedRouteLocationField	FIELDNAME	Target	Used for Field which will provide location information for the planned route
RegionData	INFOTABLE	Target & Source	Used for Region data source
CircularRegionData	INFOTABLE	Target	Used for Circular Region data source
RegionLocationData	INFOTABLE	Target	Used for Region location data source
RegionLocationField	FIELDNAME	Target	Used for Field which will provide location information for region
CircularRegionLocationField	FIELDNAME	Target	Used for Field which will provide location information for region
CircleRadiusField	FIELDNAME	Target	Used for Field which will provide radius information for circular region
ShowRegionTooltips	BOOLEAN	Target	Used for Show region tooltips
ShowCircularRegionTooltips	BOOLEAN	Target	Used for to Show region tooltips
RegionTooltipField1	FIELDNAME	Target	Used for Region field which will provide 1st tooltip data
RegionTooltipLabel1	STRING	Target	Used for Optional 1st tooltip label
RegionTooltipField2	FIELDNAME	Target	Used for Region field which will provide 2nd tooltip data
RegionTooltipLabel2	STRING	Target	Used for Optional 2nd tooltip label
RegionTooltipField3	FIELDNAME	Target	Used for Region field which will provide 3rd tooltip data
RegionTooltipLabel3	STRING	Target	Used for Optional 3rd tooltip label
RegionTooltipField4	FIELDNAME	Target	Used for Region field which will provide 4th tooltip data
RegionTooltipLabel4	STRING	Target	Used for Optional 4th tooltip label
RegionFillOpacity	NUMBER	Target	Used for Field which will provide opacity for region
CircularRegionTooltipField1	FIELDNAME	Target	Used for Region field which will provide 1st tooltip data
CircularRegionTooltipLabel1	STRING	Target	Used for Optional 1st tooltip label
CircularRegionTooltipField2	FIELDNAME	Target	Used for Region field which will provide 2nd tooltip data
CircularRegionTooltipLabel2	STRING	Target	Used for Optional 2nd tooltip label
CircularRegionTooltipField3	FIELDNAME	Target	Used for Region field which will provide 3rd tooltip data
CircularRegionTooltipLabel3	STRING	Target	Used for Optional 3rd tooltip label
CircularRegionTooltipField4	FIELDNAME	Target	Used for Region field which will provide 4th tooltip data
CircularRegionTooltipLabel	STRING	Target	Used for Optional 1st tooltip label
CircularRegionFillOpacity	NUMBER	Target	Used for Field which will provide opacity for region
SelectedLocation	LOCATION	Target & Source	Used for Currently selected location
CurrentZoom	NUMBER	Source	Used for Map zoom level (ranges from 1 to 15)

Bind Source/Targets	Type	Binding	Description
Zoom	NUMBER	Target	Used for Map zoom level (ranges from 1 to 15)
ShowMarkers	BOOLEAN	Target	Used to Show map markers
ShowPathBetweenMarkers	BOOLEAN	Target	Used to Show path/tracks between markers (ordered by the order in the underlying data)
ShowStartMarker	BOOLEAN	Target	Used to Show special marker for first map data point
ShowEndMarker	BOOLEAN	Target	Used to Show special marker for last map data point
ShowRoute	BOOLEAN	Target	Used to Show route
ShowPlannedRoute	BOOLEAN	Target	Used to Show planned route
ShowRegions	BOOLEAN	Target	Used to Show regions
ShowCircularRegions	BOOLEAN	Target	Used to Show regions
TooltipMashupName	MASHUPNAME	Target	
NEBoundary	LOCATION	Source	Used for The northeast boundary location - Longitude, Latitude, Elevation, and Units in WGS84
NWBoundary	LOCATION	Source	Used for The northwest boundary location - Longitude, Latitude, Elevation, and Units in WGS84
SEBoundary	LOCATION	Source	Used for The southeast boundary location - Longitude, Latitude, Elevation, and Units in WGS84
SWBoundary	LOCATION	Source	Used for The southwest boundary location - Longitude, Latitude, Elevation, and Units in WGS84
Notify_data	INFOTABLE	Target	Used for Notifications Data source
Notify_Timeout	INTEGER	Source	Used for Time in milliseconds after which notification hide. Set -1 if timeout not required
Notify_Type_Field	FIELDNAME	Target	Used for Notification type alert/error/success
Notify_Text_Field	FIELDNAME	Target	Used for Notification Text
Notify_Success_Style	STYLEDEFINITION	Target & Source	Used for Style formatting of success notification
Notify_Error_Style	STYLEDEFINITION	Target & Source	Used for Style formatting of error notification
Notify_Normal_Style	STYLEDEFINITION	Target & Source	Used for Style formatting of normal notification
Route_DeviationDistance	INTEGER	Source	Used for Distance in meters after which vehicle is said to be not on route
Route_DeviationMessage	STRING	Source	Used for Message to display if deviation found
ShowMapTooltips	BOOLEAN	Target	Used to Show map tooltips
ToolTip_data	INFOTABLE	Target	Used for Tooltip to be added on map Data source
ToolTip_Text_Field	FIELDNAME	Target	Used for Tooltip Text
ToolTip_Location_Field	FIELDNAME	Target	Used for Tooltip Location
ToolTip_Image_Field	FIELDNAME	Target	Used for Image to be shown
CenterOfPolygon	FIELDNAME	Target	Used for CenterOfPolygon
isPolygonEditable	BOOLEAN	Target	Used to Show map tooltips
